EAST OF THE JORDAN.

SMYRNA, March 20, 1902-We came

preserved of any we visited.

night, we came to the great Hauran plain, the wheat field or granery of the Orient. East of the Jordan was divided by the Old Testament geographers into Bashan, Gilead and Moah. The borderlines between these is not very distinctly defined. Through all that which we saw there was a rendow shutters, Jebel Haurau, the ing. Among the uplands there are mountain range where "the bulls of shan" still breed, "the oaks of Hashan," "the watch tower of Glicad," the Jabbok, where wrestled with the angel and became Israel, and further to the southward "hills of Moab"-vivid picture these present. Across the Hauran, a treeless plain, our route led. The soil produces an enormous yield of wheat, the finest in all Syria. Here we saw men plowing furrows a mile in length straight as an arrow could fly. Threshing floors are near every village, not the stone floors of west of Jordan, but dirt floors trodden hard, some lifty square yards in exent and surrounded by a low dry Here may be seen sheaves strewn to the depth of two or three eet and trodden out to-day in the same primitive fashion as depicted upon the ancient Egyptian mont ments. When the whole mass is sufdejently bruised it is tossed up against the wind with winnowing forks, the chopped straw stored away and the winnowed grain shipped off to Damas-

Coming across the Hauran we passed along the caravan route where Abrabam Journeyed with his flocks and herds toward Canaan, and where Jacob afterward traveled. We met here a typical caravan, so much like the account of those of Abraham or Jacob that every camera in the party was at were more than thirty camels, besides took you medicine."
